

VOCATIONAL SKILL EXPOSURE VISIT OF CLASS V TO KANGARO INDIA PVT. LTD.

With the aim to not only help develop higher-level thinking skills in students, but boost their confidence, self-esteem and leadership qualities, Sat Paul Mittal School as a part of the Vocational Skill Exposure Program had scheduled a visit to Kangaro India Pvt. Ltd., on 29th April, 2023 for the students of Class V. The initiative focuses on helping them acquire knowledge and competencies that they need to work proficiently and assist them in acquiring the specific C4 skillset, namely, Communication, Collaboration, Critical Thinking and Creativity to fully participate in today's global community.

The students were given a warm welcome and were apprised of the company profile. The students were made aware of the wide range of products that the company manufactures from staplers, staples, and staple removers to paper punches, binder punches, gun tackers, and many more. A demonstration was given on how the products are designed using 3D software and the final product is done with the help of 3D printers. Apart from this, a hands on activity was done with the students focussing on how to assemble the different parts of a stapler. Thereafter they were taken on a tour of the factory wherein they explored the different sections of a manufacturing unit like the Research & Development section, manufacturing lines and the design department.

The objective of an industrial visit is to provide the students an insight regarding the internal working of companies. The visit proved to be a true learning experience for the students wherein they were detailed about the entire manufacturing process. The students felt motivated and expressed their keen interest to enhance their knowledge and skills with furthermore visits in future.
