

*"IF YOU WANT TO SAVE THE HUMANKIND,
YOU SHOULD FIRST TAKE CARE OF NATURE.
IT'S THE LEGACY THAT WE LEAVE BEHIND,
THAT BRINGS US HOPE, THAT'S FOR SURE!"*

— ANA CLAUDIA ANTUNE

DOING OUR BIT FOR OUR PLANET

**CREATING A SUSTAINABLE
LIFESTYLE**

DATE: AUGUST 8, 2018

RESOURCE PERSON: MS NANCY GUPTA

MOTHER OF KUSHAL GUPTA, III-C

It is the touch of mother earth that delights our bare feet,
winds play with our hair and the petrichor that can enliven a
dying soul.

The planet that has satiated our every need is crying for help. Would we lay a deaf ear thinking there's nothing we can do about it? Or would you try to save it?

Let's face it! The planet is not in jeopardy. We are in jeopardy. We haven't got the power to destroy the planet - or to save it. But we might have the power to save ourselves.

We may not know how to save the world, but we do know that it would involve a great deal of love and kindness.

Keeping up with our aim of leading a sustainable lifestyle and contributing our two cents towards the UN SDG Initiative, Science Club, Junior School organized a workshop on 'Making Paper from Scratch'

without taxing the environment. Our resource person, *Ms Nancy Gupta*, mother of Kushal Gupta, III C, taught our rather enthusiastic audience how to make handmade paper using paper pulp.

It might seem like a tiny drop in the ocean but until you're hell bent to save the planet with sensible, green ideas; nothing can make a difference.
