

Form Assembly, “The Satyan League”- the world’s mightiest mortals

As we grow from children to adults, we need role models who can motivate us to be morally, physically and mentally strong. Superhero represents our dreams, our hopes in a form which is far more engaging and resolute than abstract words. They are like the lighthouses guiding us to reach our higher selves. The essences of these thoughts were brought to life by the Satyans of Class III of Sat Paul Mittal School during their Form Assembly-“The Satyan League” which was held on 16th April, 2019 in the Mittal Auditorium. The one-hour event brought to life the colours of invincible spirit of the Satyans enriched with enthralling performance by the children. The august gathering was given a warm welcome by the Satyans .The event started with the lighting of the lamp, facilitated by the parents.

The teachers along with the students worked very hard to put up a great show and the result was creation of our very own Satyan superheroes –Kal – he can turn pain into power, Icer – she freezes every sin, Glazier- a man of steel, Ninja star- a burning star and Reva- the mind controller. They joined hands when the harmony of the world was threatened to be perturbed by a zombie apocalypse. The audience was left spell bound with the enthralling performance. In the end, the Satyans proposed a vote of thanks. The message was loud and clear that “A hero is any person who really intends on making the world a better place for everyone. We all have a hero within us, we should just be brave enough to let him out”.
