

Sat Paul Mittal School organized Master Chef Dad (II-III) and We are Family Competitions (IV-V)

Family-Where life begins and love never ends

Family is highly significant in our life. In order to give parents and their children a chance to celebrate the meaning of being a family and to spend quality time with their loved ones, Sat Paul Mittal School organized some competitions involving both parents and the students.

In order to imbibe the significance of the family 'Master Chef Dad' was held for Classes II and III, wherein all the little Satyans enjoyed cooking with their dad and 'We are a Family' competition was held for classes IV and V wherein they prepared a dish with their dad and participated in a relay race with their mothers.

They participated with great enthusiasm and displayed their best ideas and creativity. The children were adjudged on the basis of their taste, creativity, innovation, health quotient and overall presentation.
