

Rumble in the Jungle week for Classes PV and Upvan

A week of fun filled activities was organized for the students of Classes PV and Upvan at Sat Paul Mittal School. The theme 'Animals' was integrated with all the activities. The week began with various activities like feather painting, cupcake lining activity, lion & tiger mask craft, song and dance on theme based songs. It provided them with unique educational exposure to the amazing world of animals.

The pre- primary block was made to look like a veritable jungle with the models and cutouts of various animals, in their respective habitats. They learnt interesting facts about the incredible creatures.

The week concluded with the showcase wherein the children spoke about their favourite animals. Witnessing the event together with their parents, added sparks of joy and thrill in the eyes of the little Satyans. It was an innovative way to educate and entertain the students and make them appreciate the wonders of animals' life.
