

Sat Paul Mittal School in collaboration with Mindler organised a webinar on Exam Strategy 2021

The Covid 19 pandemic has brought about unprecedented challenges to counter and conquer. This year, there's more uncertainty and confusion related to Board exams due to the changes caused by the pandemic. Preparing for Boards has never been an easy process.

An initiative of Education World, Sat Paul Mittal School in collaboration with Mindler organised a webinar on 2nd February, 2021 to help the students crack their exams successfully. This webinar was curated to showcase the right tactics which could help the students to adapt and prepare for the upcoming exams. The year gone by had been difficult for the students, so to give an edge in students' career journey, Sat Paul Mittal School brought the Mindler Scholarship Hunt, wherein the students of classes IX to XII joined the webinar to know more about this amazing *free of cost* initiative. The key takeaways of the session were to learn about dealing with exam pressure and effective strategy for the same. Tips and tricks were given to help children prepare well for the upcoming Board Examinations. Students learnt about scholarship opportunities across subject domains at leading Indian Universities. Students also learnt that by having a stronghold on the basics of the topics can help in performing much better in the exams. The easiest way to keep command on basics is to prepare short notes of formulas, concepts and compile it at a single place. Students must start their preparation early so that they will be able to compile all the necessary study material and create a proper plan that they may follow during their course of preparation.
