

Sat Paul Mittal School organized virtual Career Fair

"The only limit to our realization of Tomorrow will be our doubts of Today". - Roosevelt

With the new normal being a virtual world, Sat Paul Mittal School in collaboration with Mindler organized a student engagement event – a virtual Career Fair on January 22, 2022, from 9.00 am-2.00 pm. In this mega event, leading universities in India and abroad came together to inform the students of the changing face of education in unprecedented times. Panel discussion mode was used to inform students on career options, placements, and scholarships.

Indian Universities Panel discussion on emerging engineering careers was conducted from 9.00 am-10.30 pm by leading engineering universities. The Participating Universities: SRM University, Amrita University, Acharya Institute, JK LakshmiPat University & Shiv Nadar University gave an insight on the career options available to students in line with future careers. Various facets of a career choice and its determining factors such as aptitude and interest, span of a course, commercial resources, availability of opportunities, academic potential, and other aspects such as age, working conditions, placements and support were explained through relevant examples. Focus on profile building using Coursera to study the engineering courses, balance your short-term goals and long-term goals, focus on research and innovation and be knowledge creators.

The second panel of discussion gave students an overview on the future of Liberal Arts universities. The University officials from FLAME University, KREA University, OP Jindal Global University & Atria University helped students understand the opportunities available to students to explore and take informed decisions regarding their career options. They focused on the application process which included Passion statement, personal interview, group discussion, Panel interaction and critical reasoning essay. The session also threw light on skillset-oriented approach for placements where the universities handhold students in the entire process.

The International Universities Panel focused on overseas education in Canada and Australia. Students were given an insight on Canada as a place for undergraduate's education. The Participating Universities officials from: Ryerson University, York University, McMaster University, Queen's University & University of Windsor briefed students on the prerequisites for admission, documentation requirement, career connected education, importance of profile

building, co-op opportunities availability, scholarship requirements and qualifications. They mentioned the key USP's of their specific universities.

The second panel helped in navigating Undergraduate admissions in Australia from 12:45 pm to 2:00 pm. The participating Universities from Australia were University of Sydney & Monash University. They gave the students an insight into double degree options, research-based programs, scholarship requirements, course details. The focus is on academic excellence and English eligibility. They gave a detailed insight into the pathway programs.

The symposium aimed to offer students a platform to think, interact, and build a curriculum vitae that meets industry standards and open doors for exciting opportunities. Parents and students optimally utilized this chance to take well-informed decisions pertaining to careers and future in an unbiased and rational manner.
