

## Earth Day –Not just a day but a passion.

“There are no passengers on spaceship earth. We are all crew.”

-Marshal McLuhan

Our academic year began with the launch of the Detox campaign – a conscious movement to restore the balance of the nature and to diminish the usage of plastic. At Sat Paul Mittal School we believe that “every day is earth day”. Keeping in lieu with the sentiment the school notched up with culmination of earth day activities which seeped everyone around in the green fervour and grade being no bar.

A plethora of activities were conducted all grade appropriate starting from Hand painting, making seed bombs and Clay moulding for PV-I to Vegetable printing, Bottle Cap art , “Reel Rockstar” and Poster making for grade II-V. The underlying theme for all the activities was- “Invest in Our Planet”. The Satyans thoroughly enjoyed all the hands on activities.

Our Satyans took the ownership of saving and restoring the rightful balance of the mother Earth and addressed various issues like – Global warming, world peace and relevance of being vegan etc.

The students also engaged with The Mil Packet Recycle Project which is a yearlong initiative to bring change in the society.

Our Satyans are the superheroes of tomorrow and they realize the eminence of the responsibilities of being a conscious citizen as we prepare them to be in the future. And they realize that with inner engineering they can mitigate the earth degradation before it is too late.

The day ended with some implied and some vocal pledges to save our Planet Earth.
