

## Satyan Bhavya Bansal publishes a Book "The Quantum Mechanics"

A real proud moment to see Bhavya Bansal, Grade X student, growing from writing few research papers to becoming an author to a complete book, "The Quantum Mechanics", A fascinating branch of science that deals with the nature of the universe at a nanoscopic level. Feeling more proud, that Bhavya's book was released by Padma Shri Awardee Dr. P S Goel, Indian Space Scientist, Former director of Indian Space Research Organisation (ISRO) at LPU, in presence of Mr. Lovi Raj Gupta (Pro Vice Chancellor, LPU) and Mrs. Monika Gulati (Dean LPU) at International Conference On Small Satellites 2022, Conference.
