

SATYAN EDU FAIR

“Engaging minds...Empowering success”

Expanding horizons of possibilities, limitless exploration and learning is of utmost importance during the formative years. In consonance with its mission to create thinking individuals capable of articulating their thoughts effectively, Sat Paul Mittal School organized a ‘SATYAN EDU FAIR’ for the students of Classes Upvan - II on 29th September 2022 in the school campus. The inception behind this thought lay in the sole motive to enable students to take ownership of their learning. The approach is to facilitate experiential learning and hands on experience that will structure their thought process and help them to explore different realms of knowledge and imagination.

The Satyans exhibited enthusiasm as they presented their work on the theme “**Plants**”. The young Satyans set up a benchmark in explaining their learning with the help of experiments, posters, flash cards and videos. The highlight of the Satyan Edu Fair was a “**Rural Market and Supermarket**” set up wherein the students were involved in buying and selling of vegetables and fruits. The students of class Upvan presented a role play on parts of a plant, showcased Doctor plants corner while students of class I explained Plant Needs experiment, types of plants, and hydroponics in the Learning Station. The class II students highlighted the importance of Save Food, composting and spread awareness about veganism.

The Satyan Edu Fair enthused the students to involve in collaborative and peer group activities. It involved putting up students work on display boards, posters that motivated the students and highlighted the key learning areas. The event helped to sharpen the communication skills of the students, instill self-confidence, and nurture self-learning. Empowering and learning for the students, the Satyan Edu Fair was a huge success!
