

Students of Grade VII visited Ashirwad School

The students of Sat Paul Mittal School of Grade VII visited the NGO, Ashirwad NIPCA. Four students of Grade VII A and B were accompanied by their teachers to the visit. The NGO had a number of different rooms for the special children to study and understand the basic requirements. To start with all, the students were divided into groups and visited various units of the Ashirwad. Few of the students had brought envelop cutouts and craft material to teach the children how to decorate using buttons, ribbons, stickers etc. as well as learn from the children. While on the other hand, some of the students went to the Sewing Unit and learned how to sew cloth bags, pouches and more from the children. A fun filled dance session was also conducted with the children wherein they enjoyed a lot. In the end, Dr. Neelam Sodhi addressed the students and told us how the Institution is helping the children with special needs to earn their living and to be self reliable.
