

Date: February 24, 2015

To,

Aryaman Verma
Ludhiana, Punjab

Congratulations! You have successfully created a new national record for '**YOUNGEST TO MAKE LINE FOLLOWER ROBOT**' and it has been accepted in India Book of Records. Your record will be considered for inclusion in the future India Book of Records publications (matter of the record is subject to change without any change in fixed entities like name, place, and facts and figures).

The details of your achievement have been entered into our records database as follows:

Aryaman Verma (born on January 19, 2005) of Ludhiana, Punjab, created a line follower robot using IR sensors and transmitters which senses white flooring and follow the black path, as on July 2, 2014.

Yours Sincerely,

Nancy Gupta
