REMOTE LEARNING AND WORK PLAN PROGRAMME

Dear Parents,

To protect the safety, health and wellness of the Satyan family, the School will remain closed till 31st March, 2020. Amid the uncertainty and fear that this pandemic brings, our strength as a close knit family is our greatest asset. We can work together to protect each other and slow the progression of COVID -19 and ensure that no disruption can affect our daily life.

It is but natural that you must be worried about the academic loss due to the closure. As you are aware Sat Paul Mittal School strives to find better ways of providing rich educational experiences to students which are value adding. Our strength, the teachers, have been making consistent efforts to transform learning by using technology to collaborate, innovate and help students to become lifelong learners. During this crises, leveraging the power of digital technology, we would like to take this journey forward.

Starting from tomorrow, Sat Paul Mittal School will transition to a '**Remote Learning and Work Plan**'. Students will work with their teachers to continue the teaching-learning process from home during this period through various links which will be sent through the ERP and WhatsApp groups.

Please note that to facilitate an easy and meaningful experience, no apps, tools or software need to be downloaded.

A detailed and schedule message will be sent tomorrow outlining the remote learning plan and expectations. We will be sending follow-up communications and other updates from time to time to ensure that the students utilise their time constructively.

We thank you for your support and partnership in this effort.

Stay Safe, Stay Healthy!

Regards

Bhupinder Gogia
Principal
